Device Lifecycle

Devices at scale, ready on arrival

PROCURE | CONFIGURE | DEPLOY | SUPPORT | RETIRE

Device refreshes represent a significant investment of time and capital to complete at scale, but with procurement, imaging, and logistics challenges—and IT support split across conflicting priorities—projects can create unbudgeted costs and friction. C1 unifies the one-time deployment and long-term care of devices so your users receive secure experience day one with predictable spend to the business and less disruption to IT.

Put ready-to-use devices in users' hands without pulling IT away from the network operations.

Measured Outcomes

01 **Rapid deployment.**
Accelerate refreshes with repeatable best-practice delivery at scale for on-time, feature-rich initiatives.

02 **Logistics Mastery.**
Increase inventory accuracy in multi-site deployments with Strategic Warehousing and resourcing.

03 **Multi-year cost control.**
Reduce total cost of ownership per device with lower acquisition and operational costs.

04 **Increased IT capacity.**
Return key personnel to higher-value IT workstreams while accomplishing high-touch refreshes.

Priority Device Use Cases Delivered

Ready-for-Use Deployment	Logistics Command	Lifecycle Value
• Scale workforce to meet tight refresh windows and budgets • Configure and kit by role, site, or use case setting • Expert documentation for specific config and deployment procedures	• Track devices from staging to delivery with clear location and ownership • Coordinate warehouse delivery, setup, and distributed migrations • Validate every device before delivery; coordinate RMA on customer's behalf	• Retrieve, repair, refresh, wipe, and document asset disposition • Extend device life by reusing approved components of retired equip. • Custom-build and finance the Lifecycle program fit for your organization

C1 turns device logistics into a repeatable operating advantage

3,000+ Daily Device Scale: 2,000+ sq ft of active bench space

100% High-Precision Unit QA: Every unit checked, not sampled

3,500+ Repairs Annually: OEM authorized warranty and non-warranty

"C1's work is consistently high-quality and fast."

Tom Lorek, RCOE

Proven with C1 and Riverside County Office of Education

120+ sites • 50% less PM time • $200K+ savings

C1 managed warehousing, asset tagging, site scheduling, delivery, installation, and retired-device collection in a multi-year partnership that cut project timelines in half through best-practice efficiencies that reinvented how the Office of Ed deploys devices.

Make the next refresh a multi-year accomplishment.

Stay ahead of your next initiative with an executable plan for the duration of the device's use, created by C1 experts serving hundreds of thousands of units.

Deliverable: Site Readiness, Device Standards, Logistics Review, Asset Recovery

Next Step: Device Lifecycle Assessment

C1 makes modernization real—delivering secure, practical solutions for AI-powered communications, infrastructure, and security that drive measurable outcomes from day one. Focused on real-world results, C1 combines industry-leading partner technologies with deep expertise across advisory, professional, and managed services. From healthcare and education to government and financial services, C1 designs and delivers solutions that are faster, simpler, and more resilient—turning transformation into tangible value.
