School Emergency Response

Immediate action at the ready

PANIC ALERTING • MASS NOTIFICATION • E911

The first minutes of an incident should be spent responding, yet disconnected alerting systems and uncertain next steps slow school actions when every moment matters. C1 connects emergency notification and response from the palm of your hand, with AI-enhanced surveillance and access control for faster, more comprehensive safety.

Be ready every day with executable response technologies that save lives, from the first alert through the all-clear.

Measured Outcomes

01 **Faster help for students and staff.**
Shorten activation-to-acknowledgement time with panic buttons, discreet alerting, and automation.

02 **Verified audible and visual alerting.**
Deliver consistent instructions for protective actions throughout campus and to hearing-impaired.

03 **Precise location support.**
Validate direct 911 dialling with dispatchable caller location, reducing calling and location errors.

04 **Student and staff accounting.**
Know when individuals are safe during evacuation with reduced time to resolving reunification.

Priority Device Use Cases Delivered

Staff Assistance + 911	Guided Campus Response	Value Realization + C1 Services
• Equip staff with discreet alerts for medical events or threats • Validate 911 calling and location so responders know where to go • Route silent alerts to dispatch through state-approved paths	• Send lockdown or shelter alerts to PA, phones, screens and apps • Reach gyms and outdoor areas including after-school events • Track team acknowledgments and escalation through all-clear	• Map E911 and Alyssa's Law requirements to district and technology gaps • Align eligible costs to SVPP, grants, and other state safety funds • Implement a total solution with one partner for physical security, network and telephony

C1 helps educators have confidence in their responsiveness

Dedicated EDU Consulting: C1 C-level education experts

911 Public Safety Experts: Five-nines reliability to major metro PSAPs

3,000+ Projects: Delivered annually across C1

"The ability to have precise location data readily available to our PSAPs and police department is invaluable."

Brian Thompson, Director of IT and Infrastructure, Albuquerque Public School

Proven with C1 and Albuquerque Public Schools

70,000+ students • 163 sites • 911inform + Avaya

For a district serving dense urban centers and vast rural communities, C1 provided precise emergency location information integrated with district-wide Avaya systems, configuring site maps and calling data supporting Ray Baum's and local 911-center tests.

Put your school's emergency response plan to the test.

Bring safety, IT, facilities and local responders together to identify gaps, validate notification and calling paths, and prioritize a phased investment plan.

Deliverable: Gap Review, Response Map, Funding Strategy, Pilot Plan, Lifecycle

Next Step: C1 Emergency Response Worksop

C1 makes modernization real—delivering secure, practical solutions for AI-powered communications, infrastructure, and security that drive measurable outcomes from day one. Focused on real-world results, C1 combines industry-leading partner technologies with deep expertise across advisory, professional, and managed services. From healthcare and education to government and financial services, C1 designs and delivers solutions that are faster, simpler, and more resilient—turning transformation into tangible value.
