C1 SmartRide Safety

Protected rides with better benefits

DELIVERED BY C1, A VERKADA DIAMOND PLUS PARTNER

Bullying, disruptive behavior, and uncertainty at bus stops put students, drivers, and family trust all at risk. Transportation teams need answers and an extra set of eyes in real time before buses return from routes. Why wouldn't districts secure students in-transit to the same high safety standards protecting on-campus learning? C1 connects Verkada onboard video for AI-Enhanced visibility to every route and timely intervention when needed, with cellular access supporting bus telematics that keep fleets moving for on-time arrivals.

Protect students in the bus like an off-campus classroom: address unsafe circumstances during the complete route, inside and out of the vehicle.

Measured Outcomes

01 **Take action for on-board behavior.**
Provide evidence for interventions, helping reduce repeat bullying, fights, and disruptive driver distraction.

02 **Safer student handoffs.**
Verify where students were last seen with video and route context, reducing time spent reconstructing.

03 **See in-transit while it matters.**
Give leaders or dispatch proactive AI alerts and live bus video, shortening emergency report-to-response time.

04 **More buses ready for service.**
Monitor fleet diagnostics and harsh driving—like speeding or sudden braking—to keep vehicles transportation ready.

Priority Safety Use Cases Delivered

Onboard Driver Support	Boarding and Dropoff Safety	Value Realization + C1 Services
• Review bullying and driver concerns with AI-indexed video • Share clips with authorized staff and blur unrelated students' faces • Enhance digital equity with Wi-fi: usable off-campus learning minutes	• Find a bus by reported address and narrow the incident time • Verify a student's last known stop with boarding and drop-off video • Review student handoff events with interior and exterior video	• Validate camera views, route connectivity, vehicle power, and use cases in advisory • Train staff on review, escalation, privacy, and improvement workflows, then track • Resolve allegations fairly with 360 video designed to see students, driver, and road

Diamond Plus: Verkada's highest, invite-only partner tier

87.6 NPS: "Exceptional" installation capability score

12M Students: Supported with C1 solutions nationally

"Keep passengers and drivers safe in transit with real-time and AI-enhanced video awareness."

Proven with C1 and a Southern California School District

39 new school buses • 17,000+ students

C1 helped a long-time district customer extend their trusted on-campus Verkada experience to protecting bus routes with the same AI-Enhanced fast search functionality.

Consider what's possible with a simple bus ride.

As an extension of the campus, transportation time can provide tangible student services—and real risks. Consult with C1 to plan for what's next.
