

C1 for Education

Powering student outcomes through technology

C1 helps K-12 districts modernize infrastructure, secure digital and physical environments, and unify communications while augmenting IT capacity with advisory, professional, and managed services. Our approach simplifies complexity, lowers risk, and keeps teaching and learning uninterrupted.

Key Benefits

- **Keep instruction running.** Classroom-critical systems are monitored, managed, and optimized to minimize disruption.
- **Simplify complexity.** Standardize and modernize across on-prem, cloud, and hybrid with architectures that scale as districts grow.
- **Strengthen safety.** Integrate cybersecurity and physical security to protect students, staff, and data.
- **Modernize experience.** Give educators and staff secure tools for voice, video, chat, and contact center workflows.
- **Extend your team.** Right-sized services; Advisory, Professional, and Managed, fit your budget and bandwidth.
- **Align to funding.** Map solutions to programs like E-Rate and State & Federal funding programs where applicable.

Solution Components

Infrastructure - Modernize the foundation for teaching and learning.

- Enterprise Networking: High-performance wired/wireless for campuses and transportation, built for scale and resilience.
- Modern Infrastructure: Cloud, virtualization, data protection, and edge computing to support digital curriculum, testing, and analytics.
- Design for growth: Architect for agility, performance, and cost balance; plan for lifecycle and expansion.

Security (Cyber + Physical) - Protect people, data, and facilities with an integrated strategy.

- Cybersecurity: Network, endpoint, identity, cloud, and data security with AI-assisted threat detection and response.
- Physical Security: Unified video surveillance, access control, and monitoring tied into IT operations.
- Methodology: A proactive Protect → Detect → Recover approach tailored for K-12 environments.

Communications - Unify collaboration and parent/community engagement, securely, on any device.

- UCaaS: Calling, meetings, messaging, and classroom collaboration from anywhere.
- CCaaS: Omnichannel experiences for district help desks, enrollment, and community services.
- Global Cloud Calling: Secure PSTN services with compliance features (e.g., E911) and branded caller ID.
- AI Automations: Accelerate safe, value-driven automation across communications and workflows.

C1 Services - Deliver outcomes faster and with less risk.

- Advisory Services - Assessments, strategy workshops, and roadmaps that align technology to instructional priorities and funding.
- Professional Services - Design, implementation, migration, and integration—on time and on budget, with proven project governance.
- Managed Services - 24x7 monitoring, management, and optimization to reduce burden on district IT and ensure continuous improvement.

C1 at a glance

8M+ Students Supported, **1,600+** Specialized Engineers, **3M+** Devices Serviced/Provisioned, **600+** K-12 Districts, **5,600+** Technical Certs, **300K+** Devices Supported Annually, **300+** Public Sector Personnel, **300+** Trusted Partnerships, **300+** Purchasing Contracts

What C1 customers are saying:

“The partnership with C1 has been transformative, allowing us to strategically address our immediate needs while setting the stage for future advancements.”

Matthew Childs

Network Operations Manager, Aldine Independent School District

Talk to an expert

[Talk to a C1 education specialist](#) to map your priorities to a phased roadmap across Infrastructure, Security, Communications, and Services. We'll align to available funding and deliver quick wins that build long-term value.

C1, the global technology solutions provider, transforms businesses by creating connected experiences that shape the future. With more than 6,000 customers, C1 empowers industries through secure, innovative technologies, collaborating with leading partners to deliver total lifecycle solutions. Learn more at onec1.com.
